"Aye, Sir, we have it at our fingers' ends."

—Shakespeare

That's where we have the spectacle business—at our fingers' ends. That's the secret of our success; just a little ahead, never behind.

In this day of defective sight, neither young nor old should wear glasses unless fitted by one who has all the details of the science right at his fingers' ends.

We are thoroughly familiar with the eye and its needs.

WAR NEWS FROM BERLIN TELLS OF MANY HAPPENINGS OF CAMPAIGN

(Translated from the Foreign Press) Das Echo, Berlin, under date of October 14, 1915, says: "The foreign press has lately published statements of German losses in the submarine war and the loss figures given are continually growing. The news service of the British wireless station Polbhu of October 5 reports our losses in submarine boats to be 60. In the face of such boundless exaggerations we have been authorized by official sources to publish the statement that less than one fourth of the above figure has been lost. Furthermore that the change in the submarine war has been the result of these losses. We are able to state that the number of submarines at the disposal of Germany is considerably larger than it was at the beginning of this year when the submarine war first began.

BERLIN, Oct. 23.—The Danish publication Kjobenhavn, which is strongly anti-German in its tendencies, is launching a forceful protest against the brutality of treatment accorded German civilians imprisoned in the camp of Esoudun by their French capturers. This publication, which in all other questions has been taking the side of the Allies without reservation, says as follows: "For nearly 18 months are German and Austro-Hungarian artists, journalists and writers as well as ladies of the educated class receiving worse treatment at the hands of French officials than the commonest criminals. It is impossible not to feel the deepest pity for these victims of senseless injustice and senseless hate."

BERLIN, Oct. 20.—The Koelnische Zeitung reports that Field Marshal von Mackensen has termed the taking of Belgrade an unprecedented deed. He is reported to have said: "The successful crossing of so large a river without bridges and in the face of the enemy is a deed unprecedented in the history of any previous war." This paper also describes the difficulties with which the armies have to battle while fighting in Serbia. They are simply enormous. The Serbs are brave fighters and have strong positions well prepared. The streets are absolutely impassable on account of rain. The success has to be gained principally by strategical movements just as it had to be done in the Carpathian mountains.

BERLIN, Oct. 21.—The following report has reached this city from London via Amsterdam: "...high official of the German foreign office is reported to have said: 'The war against Great Britain will commence in earnest in about two months; in about five weeks Serbia will have been crossed and the junction with Bulgaria and Turkey will have been effected. The enormous amounts of food and raw products will be at our disposal. In about two months we will be able to receive all the cotton and wool we need from Anatolia and will not have to beg America for it. As soon as our railroad connections have been established with Bulgaria and Turkey the war against Great Britain will commence in earnest. We have occupied sufficient territory of France and Russia to conclude an advantageous peace with these two countries. Our success in the Balkans imperils the British empire. Three railroad connections to Constantinople will open us the way to the Suez canal and to Egypt.' This report from London is not endorsed by all German writers, but on the whole the opinion seems to be that the result of the Balkan campaign will finally decide this war. German officials seem to be absolutely confident that Rumania and Greece will remain neutral, but it is no secret that both countries are being watched very carefully.

SALONIKI, Oct. 20.—The French general staff has issued a sincere warning against newspaper rumors of "serious defeats" or "brilliant victories" and points out that in many cases the same names are being given for entirely different locations and places. One of these cases is the report of the capture of the town of Strumitza in South Bulgaria, while the fighting has taken place far westerly at the railroad station of Strumitza near a city of the same name. (The general staff takes good care not to mention the result of this fight.)

AMSTERDAM, Oct. 22.—A cablegram from Sofia via Berlin reports: "It is absolutely untrue that the Bulgarian city of Strumitza has been taken by Anglo-French troops. It says that the French and English have been defeated in a battle with some Bulgarian troops and have not succeeded in crossing the Bulgarian frontier."

BERLIN, Nov. 5.—The Social Democratic party management has published a memorandum against the increase of food prices in Germany. The publication declares that Germany is more than sufficiently supplied with food and that a rise in prices is due alone to usury of certain business classes. The party demands in this memorandum severe measures against such violations of the existing laws. Concurrent with the publication of this memorandum the "Vorwaerts," the leading socialist paper in Germany, has brought an editorial discussing in very favorable terms the measures adopted by the government against the increase in prices, and expresses itself in favor of enacting maximal prices, which are to be materially lower than those in force up to the present.

BERLIN, via London, Nov. 7.—Before the new maximal prices adopted by the German "Bundesrat" came into effect, the Berlin live stock market was flooded with live stock offered for sale. The prices on pigs dropped from \$7.50 to \$10.00 per hundred-weight below the former quotations. A number of sales were made below

the maximal prices established by the government. The "Bundesrat" will again go into session tomorrow to fix the highest permissible prices for eggs and dairy products.

ROME, via Paris, Nov. 5.—The present relationship between Germany and Italy is creating a great deal of comment among speculators on political affairs in Europe. The two nations seem to be anxiously avoiding a declaration of war against one another and everything which might increase the bitterness in their mutual relations. According to news received from Berlin there are still thousands of Italian laborers in Germany unmolested and there are numerous Germans in Italy without danger of harm. The most important fact according to the prominent Italian opinion is to be found in the negotiations conducted between the two countries, which tend to establish details for an exchange of products not immediately needed for warfare. Certain well-informed circles are of the opinion that Italy plainly stated to her new allies, when she broke the Triple Alliance with Germany and Austria-Hungary, that she would take part in the war only as far as the struggle against Austria-Hungary was concerned with the only view of conquering the Italian provinces still under Austria's rulership. This situation it is declared makes it possible that Italy and Germany may assist one another under certain circumstances.

WASHINGTON, Nov. 8.—The Austro-Hungarian embassy received a cable from Vienna foreign office today announcing that there has been subscribed up to date toward the new Austrian loan, in Austria K2,300,000,000 and in Hungary K1,500,000,000, a total of K4,800,000,000. Austrian papers are declaring that through this loan which surpasses all expectations the proof has again been given of the unbroken economical strength of the dual monarchy, at a time when competent English experts have admitted the seriousness of the financial situation in Great Britain.

BERLIN, Nov. 3.—According to a cable from Sofia to the "Pester Lloyd," millions have been spent in Bulgaria by the Entente powers during the last days preceding the Bulgarian declaration of war. These amounts were to strengthen the opposition and to assure its victory against the government. In several cases it has been proven that members of the opposition received as much as Frs. 500,000.

MILANO, Nov. 2.—The Rumanian opposition lead by Take Jonescu and M. Filipescu is leaving no stone unturned to overthrow the Bratiano cabinet and to form a ministry favorable to the Allies. It has been semi-officially announced that Rumania will not participate in the war unless the Allies land half a million troops, as it will otherwise be impossible for Rumania to wage war on two fronts.

ROME, via Paris and London, Nov. 4.—L. Jowanowitch, the Serbian minister of education, made the following statement to a correspondent of the "Messagero" before leaving Nish with the other members of the Serbian government: "Our last hour has come. When Bulgaria began to mobilize we intended to attack her, but our Allies did not permit it. We were told that the mobilization of the Bulgarian army, which we intended to stop by force of arms, was not directed against us but against Turkey, and that we would have to bear the consequences if we crossed the plains of the Anglo-French-Russo-Italian diplomats by a premature attack. We abided by the advice and trusted in the promises given us. The result is that our nation is now in its death struggle."

BERLIN, via wireless via London, Nov. 5.—The official St. Petersburg "Novoje Wremja" is furious about the failure of the Allies' diplomacy in the Balkans as is reported from Copenhagen. This paper demands that Greece be compelled by force of arms to enter the war on the side of the quadruple entente.

LONDON, Nov. 9.—The correspondent of the "Morning Post" reports from Athens that the sentiments of the Greek people are changing more and more in favor of the central powers. Eleven of sixteen papers published in Athens are pro-German and most of the army officers are also pro-German. It becomes more evident every day that there is an understanding between Bulgaria and Greece and it is openly discussed in the Greek capital that Serbia is to be divided between the two countries. The Greek government has been promised by the central powers and Bulgaria the southern part of Albania and the Macedonian provinces of Wilajetz, Gjevgjell, Monastir and Dolran.

EUGENIC MARRIAGES

Will insure to this country a healthier and more intelligent "Family of the future" and many a woman, obviously unfit for marriage, has had her health restored by the timely use of Lydia E. Pinkham's Vegetable Compound, the most successful remedy for female ills the world has ever known. Enormous quantities of roots and herbs are used annually in making this good old-fashioned remedy and no woman who suffers from female ills should lose hope until she has tried it.—Adv.

After striking a breakwater and springing a leak while entering the Dutch harbor of Muiden, the Dutch steamer Monnikendam, Newport News for Amsterdam, was beached.

LOOK AT CHILD'S TONGUE IF SICK, CROSS, FEVERISH

When Constipated or Bilious
Give "California Syrup
of Figs"

Look at the tongue, mother! If coated, it is a sure sign that your little one's stomach, liver and bowels need a gentle, thorough cleansing at once.

When peevish, cross, listless, pale, doesn't sleep, doesn't eat or act naturally, or is feverish, stomach sour, breath bad; has stomach-ache, sore throat, diarrhoea, full of cold, give a teaspoonful of "California Syrup of Figs," and in a few hours all the foul, constipated waste, undigested food and sour bile gently moves out of its little bowels without griping, and you have a well, playful child again.

You needn't coax sick children to take this harmless "fruit laxative"; they love its delicious taste, and it always makes them feel splendid. Ask your druggist for a 50-cent bottle of "California Syrup of Figs," which has directions for babies, children of all ages and for grown-ups plainly on the bottle. Beware of counterfeits sold here. To be sure you get the genuine, ask to see that it is made by "California Fig Syrup Company." Refuse any other kind with contempt.—Adv.

FOREMAN OF A MISSISSIPPI LUMBER CAMP LYNCHED

COLUMBIA, Miss.—Jack Hughes, 30 years old, foreman of a local lumber plant, was taken from the county jail here early by a party of masked men and hanged to a tree a short distance outside the city limits. Hughes was under arrest in connection with the murder of Laru Holloway, a Columbia youth, who was killed in a lumber camp near here on the night of October 21.

Easiest, Quickest, Cleanest Way to Dry Your Clothes

is to hang them on a Hill Dryer. Instead of being spread all over the lawn, supported by numerous poles, the lines on a Hill Dryer are strung on a revolving reel, running from rib to rib, every inch of every line within your easy reach. How much more attractive your home surroundings would be without the unsightly clothes poles and clothes lines strung all over the yard—and in their place, the neat, compact, convenient

Hill Clothes Dryer

No dragging heavy clothes baskets up and down the yard—no digging pathways through snow in winter—no wet feet from damp grass on summer mornings. With the Hill Dryer you simply set your basket of clothes down in one spot and hang the whole basketful without moving a step. When not in use the Dryer is

Taken Apart, Folded Up and Put Away to be kept clean—leaving the yard or lawn entirely clear of all obstructions. What a contrast with the old-style, always-in-the-way clothes line. No woman can fail to appreciate the great and many advantages afforded by the Hill Dryer, nor the vast saving of time and labor gained by its use. Made in three sizes, holding 100, 115 and 120 feet of line, with wood posts, or steel posts. We have, or can get, all sizes. Other styles for balcony and roof. Ask to see this great household convenience.
